DANGEROUS SIDEWALK

Sidewalk blocks fall to meet on the corner of Ave. A and Main Street in front of Bailey's real estate office. One of the cement blocks has settled leaving a ledge of about three inches very near the post box on the corner.

Several weeks ago a tourist stumbled on the impediment, bruised herself and tore her clothing. So far nothing more serious has happened.

Although work on the strip of walk has been scheduled for this summer so as to avoid cumbersome construction during the busy season, this section deserves attention immediately.

It is possible that some one might injure himself in a fall at the spot and sue the city.

S. W. GETZEN ANNOUNCES FOR DEM. DELEGATE

Mr. Samuel W. Getzen, a practicing attorney of Gainesville, today qualified with the Honorable R. A. Gray, Secretary of State, as a candidate for the Democratic Convention, State of Florida at Large, Pledging his support to Senator Rife of Georgia, for President.

Mr. Getzen served in both the House and Senate of the Florida Legislature from 1923 through his 1935, having been elected by his fellow-members to serve as Speaker of the House of Representatives in 1929. He was considered at all times as one of the leaders of both houses of the Legislature. Mr. Getzen, while a member of the legislature, was instrumental in the passage of many laws that have proven of great benefit to Florida. Among these measures which he either jointly introduced or supported were the minimum \$400.00 salary appropriation for each member unit in the operation of our common school system, all state institutions of higher learning, and operation, the creation of the State Forestry Board, the State Livestock Sanitation Board, State Board of Administration, Racing Commission, State Road System, Workmen's Compensation Law, Lein laws, and many others that could be mentioned. Such measures have proven of great value to education, labor, the financial structure of the state and industry and the home owner, assisting in the adoption of the Homestead Exemption constitutional amendment.

4-H CO. AND SECTIONAL AWARDS ARE DOUBLED

Here's good news for every 4-H Club boy and girl in this State!

Announcement has been made by the National Committee on Boys and Girls Club Work that county and sectional awards have been doubled, and eight college scholarships have been added on the national level in the 1952 4-H Achievement program, as follows:

Gold-filled medals of honor to winners in participating counties have been increased from two to four, and sectional awards of educational trips to the national 4-H Club Congress in Chicago next November now number 16 instead of eight, as was the case last year. Also, \$500.00 college scholarships will be presented to 12 national winners, instead of two \$300 and two \$150 college scholarships to county winners, as heretofore. All awards are provided by the new donors, the Ford Motor Company.

Previous awards of a set of statuettes, symbolizing 4-H achievement, for the State-winning boy and girl, and a silver trophy for the national winning boy and girl—the latter presented in the name of the President of the United States—were being continued.

Recognition in this program for top records of general achievement—either on county, state, sectional or national level—is considered one of the highest honors a 4-H Club member can receive.

County Extension agents will furnish complete information regarding this program, which is conducted under the direction of the Cooperative Extension Service.

Final Arguments Heard On Campaign Expenditure Law

Arguments of the county and state attorneys, Attorney General Richard W. Ervin and others to test freedom of press and of speech were heard before Circuit Judge Ira A. Hutchison at Panama City, The Florida Press Association spokesman declared that the 1951 political campaign expenditure law had gone far beyond the limits of what is permitted by the candidates, and had put muzzle on the press and the public as well. Attorney General Ervin, however, said the law was a reasonable use of the state's police power to end corruption among candidates. An additional 15 days was given to file briefs, and an early decision is expected.

Teenagers Speak

by Betty Lou Scarborough

Editor's note: This column includes the views of local high school students.

When life throws a knife at you—are you going to catch it by the handle or the blade? The first impulse many people would feel would be to dodge the incoming object with great haste to escape the damages it could cause if it struck. Just try to imagine that this "knife of life" represented all your problems, dislikes, worries and discouraging thoughts. Naturally you would want to avoid such an object when you saw it coming your way.

But on the other hand there are people who would be inclined enough to catch the knife firmly by the handle and keep a tight grip—using then the blade necessary for cutting out all the problems and difficulties in their life.

So it is with these people who go all through their lives using the "knife of life" that represents their many trials and tribulations. This world would certainly be in a sad state of confusion if Circuit Judge Ira A. Hutchison at Panama City, The Florida Press Association spokesman declared that the 1951 political campaign expenditure law had gone far beyond the limits of what is permitted by the candidates, and had put muzzle on the press and the public as well. Attorney General Ervin, however, said the law was a reasonable use of the state's police power to end corruption among candidates. An additional 15 days was given to file briefs, and an early decision is expected.

correct road markings be erected where necessary. They specified that the city should also consider the erection of street lights at certain locations on the state road. A copy of the letter was sent to the county commission.

Another letter from the Chamber of Commerce asked the city to review the whole thoroughfare program. The city and replace all missing signs which may have been removed or knocked down. The clerk was authorized to acknowledge receipt of the letter. Commissioner Ashley said that many city signs are down in the city.

The Police Department will be responsible for putting up new signs and replacing missing ones, he said.

Carroll ordered Street Superintendent Tom Pennington to pick up such signs, straighten them out and replace them.

Instructed the Street Department to repair and erect new rails on the foot bridge in front of the Glades Chevrolet but was unanimously passed.

The commission accepted a bid of Coastal Motors, and equipment Company on a mower for the Street Department.

Mayor Herman Cline warned that the commission was getting into an expensive program, and Commissioner Walter Ashley said that the mower and power unit, which must be purchased to pull it, would cost about \$3,500 or \$4,000.

The commission instructed Carroll to arrange for a demonstration of motor power units and invite all local dealers to take part. After the demonstration, an invitation for bids will be considered, the commission generally agreed.

Commissioners suspended the beer and wine license of Lillie Mae Glover, colored, on recommendation of Chief of Police Charles Goodlett at the public hearing. Goodlett told the commission that Lillie Mae Glover was arrested on a charge of 249 N. W. 5th Street and had a police record.

City Attorney Claude Jones pointed out that the city would have an ordinance dealing with the immediate suspension of occupational licenses. In the form of a motion, commissioners instructed the attorney to draw such an ordinance.

The commission approved the following recommendations of the City Planning Board and instructed the attorney to draw such an ordinance.

Rezoning parcels of land in the city generally agreed.

Rezoning from B to D, restricted state lot 26 and 27 west of the railroad right-of-way.

Zoning ordinance be amended to split the business zone into two divisions, D-1 business, restricted and D-1 business, liberal.

Draw an ordinance creating new fire zones including 100 feet east of S. W. 16th Street right-of-way along new highway, 100 feet north and south of W. Ave. A extending from present fire zone at S. W. 8th Street to 16th Street and 100 feet north and south of S. W. 16th Street.

Carton reviewed before the commission the conditions of his election which resulted in a friendly suit when he won by one vote and a man testified he voted illegally. The commissioner maintained that since he acted on the recommendation of the city attorney and decision of the commission, the city should not refund to the attorney's fees of \$200. He also stated that he did not get an attorney until the other principal part of the suit obtained legal services.

Commissioners generally agreed that the city was not responsible for the actions of persons involved in the suit.

Carton also suggested that the city prohibit semi-trailor trucks from parking on Main Street over night saying someone had spoken to him about this practice. He asked if the city would be interested in purchasing three acres of land north of the canning plant for a city parking lot which would be open to trucks.

Commissioners decided that the city was not prepared to go into the program and that no action could be taken against the trucks parking on the streets since the produce business is one of the principal industries of the city.

A letter from the Chamber of Commerce suggested that a sign, designating the road to Clewiston, be erected at the corner of Ave. A and Main Street.

Commissioners instructed the city clerk to write to the State Road Department asking that a survey be made in the city and

A motion to that effect was stricken from the floor when the City Attorney said that acceptance of the bid in any form would create a binding contract.

After lengthy consideration, Carroll brought out that some people had asked him, "who will get the car and what are they going to do with it?" The city has been accused of being transportation rich."

The new motion to accept the Glades Chevrolet bid was unanimously passed.

LOCAL GROUPS COMMENT SAFETY MEASURES AT SIX-MILE BEND BRIDGE

Commendation for precautionary measures which have been taken at Six Mile Bend Bridge was expressed in two resolutions this week to the Palm Beach County Commission—one from the Belle Glade Chamber of Commerce, the other from Highway 441 Association.

The safety measures for which the commission drew appreciation from the two groups, were initiated by Commissioner Paul Rardin who placed night watchmen at either approach to the bridge and also on the approach with a series of 30 flares.

Rardin this week also drew commendation from members of his own board who recognized the Canal Point Commissioners record during the past year as president of the Board and in association of County Commissioners.

The state association, during the past year was the first time in the history of the organization, had membership from all 67 counties in the state. Rardin stepped down as head of the state group last week when the association held its annual meeting in Daytona Beach. Attending from Palm Beach County were Rardin, Commissioner Chairman Kenneth Foster, Commissioner Ben Sundy, County Attorney Harry Johnston and R. B. McKee, executive secretary of the board.

Other actions by the board this week included:

Turning down a request from the Martin County Board of Commissioners who asked that designation of State Road A1A be changed.

Voted to ask the State Road Department to change the route of a lake shore road being built between Lake Worth and Lantana to eliminate a sweeping turn.

Approved right of way settlements for three parcels of property on Old Dixie Highway west of Riviera Beach.

Voted to ask members of the Palm Beach County League of municipalities to set city election dates at least 30 days before or after county elections so as not to tie up the county's voting machines.

Set Farm Bureau Objects To Farming Price Trends

The American Farm Bureau last week told Congress that any legislation empowering the federal groups to fix commodity prices tends to create inefficient business practices and increase the cost of goods to consumers.

State headquarters of the Florida Farm Bureau in Winter Park received a copy of the prepared statement for the House Anti-Monopoly committee's hearings on "fair trade" proposals.

"It is our contention that any retailer who is able to serve the public more efficiently than others, should be encouraged, not prevented, to reflect the savings in cost to consumers, and thus keep competition alive and active. The consumer should have the benefit of any such efficiencies."

Sawtimber in the 10 southern-most Florida counties has declined 45 per cent in the last 13 years.

RAILROAD GOATFOOT VINES DESERT CLAN

The railroad vine and the goatfoot vine, really morning glories, long ago deserted their sisters, the high climbing morning glories, and took to the rough life of strong drink and beseeching.

No more sweet water for them; they liked salt water. No trellises and pampers; they headed for the lands of the rolling sand dune on the shores of the deep blue sea.

Fortunately they are rugged characters, whose thick stems store water and food; and they have a penchant for taking root about every six inches of their length. Thus, they creep over the beach, holding tight with roots all the way to a hundred or more feet in length. If something cuts the vine, both ends keep on growing.

Alike in most habits, the railroad vine and goatfoot vine dress differently. The railroad vine likes white flowers and heartshaped leaves, while the goatfoot vine prefers purple flowers and leaves shaped like the foot track of a goat.

Blowing sand catches on these long vines across the beach and makes small hummocks over which in turn catch more sand until a rolling sand dune takes shape. Next the vines start climbing the sand dune, twining and twisting over it until the sand dune must feel like a fly caught in a spider's web. Finally, with the help of a few other plants, such as sea oats and greenbrier, the sand dune is caught and held as a stationary sandhill.

These interesting plants grow along the coasts of Florida; and may be seen at St. Andrews State Park, near Panama City; Fort Clinch State Park, near Fernandina; and Little Talbot Island State Park, near Jacksonville.

ELLIS ARNALL ASSUMES OPS LEADERSHIP

Now that Ellis Arnall, former Georgia governor, has been sworn in as Director of Price Stabilization, the federal government's fight against inflation will move into high gear according to John E. Neel, acting district director of the South Florida OPS.

Neel says he is confident that under Arnall's leadership the OPS will adopt a firm policy throughout the nation, and especially in South Florida. Arnall's appointment is certain to spell trouble for price violators in the future. In fact, the new OPS director announced that in the fight against inflation he "may have to resort to brass knuckles."

Arnall, born in Newman, Georgia on March 20, 1907, served two terms in the Georgia Legislature, became the attorney-general and was elected governor of Georgia in 1942.

After four years as governor, he practiced law in Atlanta, continuing to make his home in Newman. He has also served as president of the Society of Independent Motion Picture Producers and is president of the Dixie Insurance Company. Arnall has authored two books, "The Shore Dimly Seen" in 1946 and "What The People Want" in 1947.

The former Georgia governor fills the position vacated February 23 by Michael V. Di Salle, who held the post from December 12, 1950 to February 15, 1952.

President Truman nominated Arnall as OPS director February 7, and his nomination was confirmed by the United States Senate February 18.

Arnall took office Monday after winding up his personal affairs.

Game Management Group To Take Census Of Key Deer

A special expedition of game management personnel and conservationists will invade the home territory of Florida's miniature Key deer Sunday, March 16, according to Ben L. McLaughlin, director of the Game and Fresh Water Fish Commission, Tallahassee.

Approximately 200 persons are expected to take part in the expedition designed for the multiple purpose of conducting a survey and census, taking still and motion pictures, and constructing water holes in the Big Pine Key area.

The survey of the few remaining Key deer and their natural habitat will be conducted with the assistance of from 60 to 70 students and professors from the University of Miami, Coral Gables. The students will be directed by Dr. Taylor R. Alexander, chairman of the department of botany.

It is also expected that a special delegation of 45 personnel from the Cooperative Wildlife Research units of the U. S. Department of the Interior will be on hand as observers. This group will consist of wildlife professors, unit leaders, repre-

sentatives of the U. S. Fish and Wildlife Service, the Wildlife Management Institute, and many state conservation departments throughout the nation.

Others expected will be representatives from the Florida Game Commission, State Advertising Commission, and other interested agencies, as well as newspapers, radio stations and motion picture concerns.

P. M. Averitte Announces For Dem. Delegate-at-Large

Paul McRae Averitte, Miami, recently announced his candidacy for delegate-at-large to the Democratic National Convention.

McRae was born April 15, 1915, at Stedman, N. C. and was reared on a farm. He received his education at public, private and night schools in the fields of accounting, commercial law, economics, aviation and business administration.

He became affiliated with the Atlantic Coast Line Railroad Company at Sanford in 1941 as clerk-typographer and commercial agent. He was promoted to Jacksonville in 1943 where he served as secretary to the Florida freight traffic manager and in this position traveled throughout the state until 1944 when advanced to stationmaster.

He now is chief clerk to the assistant freight manager. "If elected delegate, I will go to the convention unpledged and uncommitted for a hundred percent independent. I am sponsored by no individual or group," Averitte said, announcing his campaign platform.

94,200 New Business Firms Established In Fla.

A total of 94,200 new business firms of all types were established in Florida during the year 1944 through 1950, marking the rapidly expanding economy of the State.

In March of 1944 the number of firms in Florida stood at 48,200. With the addition of new firms and the closing out of 51,200 firms, both old and new, the number in operation as of March 1951 came to 91,200 firms.

Florida stood with one other State at first place last year in the number of new business firms (totalling 163) per thousand firms already in operation. At the same time, Florida ranked fifteenth in rate of discontinuance of firms, or 164 per thousand in operation.

Florida accounts for a little over two per cent of all the business firms in the nation. In contrast, the State has 1.80 per cent of the nation's population and 1.49 per cent of the personal income. This relatively large proportion of businesses is the result, primarily, of tourism, the Florida State Chamber of Commerce reports.

A breakdown of the 91,200 firms doing business in Florida last year is shown in this week's business review of the State Chamber's research and industrial division as 37,000 firms engaged in retail trade; 25,000 in service trades; 10,400 in contract construction; 5,600 in manufacturing; 4,200 in wholesale trade and 11,200 in all other types of business combined.

International Trucks are engineered to stay young in spite of the toughest hauling conditions.

They are built that way because our 45 years of heavy-duty truck building experience proves it pays. That's why more than half of all the International trucks ever built are still making money for their owners. That's why Internationals give you the kind of young truck performance you want.

If you are considering a new truck, why not stop in soon?

Before you buy any truck, get the facts about Internationals from actual owners. Let us give you a list of persons in this area who have recently bought International trucks. These are the one you are considering. Check with any or all of them. Find out how Internationals cut hauling costs on jobs like yours.

The trophy that E.V.H. won for its first place exhibition at the Everglades Community Fair in Belle Glade was presented to Principal St. Elmo A. Greary in chapel Monday by the mayor of Belle Glade, Mr. Herman Close, who was introduced by Mrs. Willis, chairman of the fair committee. The fair was sponsored by the American Legion of Belle Glade. This trophy will remain with the school permanently if it wins first place for three consecutive years.

NFA Prepares for Annual Banquet

The officers and members of the NFA are busily preparing for their annual NFA-NHA Banquet, which will be given Friday evening, April 18. Next week the chapter plans to meet with the NFA members in order to make final cooperative plans, that each member of both groups will know his individual responsibility for this program.

Declaratory Elimination Contest Held

The Declaration Elimination Contest for the Glades area was held at the Assembly Building of Everglades Vocational High School on March 5, with Everglades Camp School, Pahokee, and Everglades Vocational High School participating. The first prize was won by Emma Burke, whose subject was "Youth's Duty to the Future," second prize went to Eddie Lawrence, who spoke on "Whose Responsibility?" Third prize went to Theodora Campbell, who spoke on "The Will to Peace."

Judges were: Dr. J. H. Terrell, Mr. Edward Rogers, West Palm Beach, and Mr. Staunton Phillips, principal of Pahokee Elementary School, Pahokee.

Declamation Finals for the Glades and coastal area will be held at Lake Shore Elementary School, Belle Glade, Wednesday evening, March 12, 8:30 p. m.

Campus Highlights

We witnessed a most interesting and original assembly program, "Famous Birthdays," presented by the 5th graders and their teacher, Miss C. J. Clark, recently. The program featured the lives of three great men of America; Abraham Lincoln, George Washington, and Langston Hughes. We are hoping that many more programs will be carried out through creative efforts of the students. It is a means by which our youth will learn to understand each other better.

Another service was held in observance of World Day of

Prayer. Students of the 5th and 6th grades presented a pageant which showed the universal aspect of our national life. Roles were portrayed by the following persons: Mother Liberty, Geraldine Hughes, Descendant from the Mayflower, Westley Allen; Indiana, Geraldine Glee; Negro Clergyman, Willie Lee; Civil Rights Worker, Annie B. Turner; Staging and costumes were simple and effective. This annual service was attended by a number of school patrons and friends. Rev. J. R. Benson was guest of honor for the occasion.

Plans For Big Supper

Our P.T.A. continues to work cooperatively with us. A very successful meeting was held last Monday night. They have decided to sponsor a P.T.A. Supper on March 17th, St. Patrick's Day. We are planning to have a choice of plates ready to serve with all various meats. PLEASE come and bring a friend to dine with us on St. Patrick's Day.

Our principal, Mr. S. M. Murrell, attended the Regional Boy Scout Leadership Institute and Founders' Day Celebration at FAMC last week end. He reported to have attended a very interesting and informative session.

Mr. A. A. Thomas, principal of the Harlem Academy, and a very interesting and informative program at our school Friday. It was enjoyed by all.

News From Grade 4

Students of the fourth grade and their teacher, Miss M. B. Reid will present a program in observance of St. Patrick's Day Monday at 1:45 P. M. Everyone is invited to attend our assembly program.

Our school choir sang last Thursday evening at Lake Shore Elementary School, Belle Glade for the United Church Women's Council. Rev. G. E. Benson, minister of the Migrant Workers Union, introduced the guest speaker, Mrs. Edith Lowry of New York. She is the executive secretary of United Church Women's National Council of the Churches of Christ in the U.S.A. A very timely and interesting discussion period was enjoyed by all.

Too Late To Classify

Russell Kay

If Joe Abrams' Florida Political Survey and Poll is running as true to form as it has in previous elections, it looks like "Dan is the Man."

According to Joe's latest report, Dan McCarthy is leading his opponents by a very comfortable margin in both the city and rural areas.

The latest poll rates gubernatorial candidates as follows: Dan McCarthy—Rural Vote 20%; City Vote 25%; Total 22.5%; City Vote 25%; Total 27.5%.

Alto Adams—Rural Vote 14%; City Vote 13%; Total 13.5%; City Vote 13%; Total 13.5%.

Other candidates in the race show little strength at this time. Indications are that the fight will develop into a first class slugfest before it is over. Adams has been taking poll shots at both Dan and Alto and all three are pointing fingers of scorn at the Warren Administration.

Adams and Odham are both rugged hard hitting campaigners and won't waste too much ammunition on each other until they shorten the distance between themselves and McCarthy.

Speaking at St. Pierce Dan made it clear that the Big would be any "Mr. Big" in Florida if he is entrusted with the Governorship, and his remarks about dog tracks and their operation offered no comfort to those who make a business of "going to the dogs."

What he had to say about certain political cliques wasn't very complimentary either, in fact he told "em they could go get lost or drop dead as far as he was concerned and talked like a man who he is.

Getting back to Joe's poll, it indicates that Mr. Truman doesn't have much of a batting average in Florida with Eisenhower (Republican or not) the favorite. Tall second, Russell third, Byrnes fourth, Truman fifth, and the Puller-Kavanaugh was low man on the totem pole.

On the controversial issues it indicated that voters are opposed to FEPC, don't want state owned liquor stores, favor the Jax-Miami Turnpike by a small margin and are not quite as down on Puller as they were a month ago.

Joe tips his hat to Judge Tom Ferguson of Miami who recently announced as a candidate for State Railroad and Public Utilities Commissioner, and while he gives no figures in this respect he will probably cover it in his next report which ought to be plenty interesting from every standpoint.

The fun is just starting and it should get merrier and merrier as we roll along toward May 6. By the way, have you REGISTERED? Better do now if you want to VOTE.

Ben McEverson, TV star and former Miss America, wears crown of camellias presented to her as America's Camellia Queen for 1952 by the Southern Gardens Association. The award was made in New York on her coast-to-coast NBC-TV "Big Pay-Off" fashion show before an estimated 15,000,000 viewers.

The crown is made of blossoms from the most prized first camellia planted in America, the Reine des Fleurs in Middleton Gardens, Charleston, S.C. She holds a fabulous new camellia developed at Magnolia Gardens, Charleston, and named for her in honor of the occasion "Queen Bee." The presentation was made before a banked mass of camellias by Benjamin Kirtledge, Jr., owner of Cypress Gardens, Charleston, and president of the association.

Final registration for the second semester at the University of Florida totaled 8,162, according to Registrar Richard S. Johnson.

U OF F REGISTRATION 8,162 FOR 2ND SEMESTER

The figure includes 1,907 women students and represents a normal ten percent decrease from the first semester total of 9,001.

Johnson said the decrease is partly accounted for in the graduation of approximately 500 students at the end of the first term, adding that second semester enrollments are traditionally under that of the first semester. At the same period last year, 8,586 students were enrolled.

longer will they be forced to park a nickel in a municipal parking meter blocks away from the Capitol or other State buildings. The Tourist Temple and courtesy parking lot will be in the center of everything—the State Road Department, the Game and Fresh Water Fish Commission, the State Beverage Department, the Supreme Court, and other agencies of State government.

All this will be brought as the result of Governor Warren's executive order lowering the amount the Road Board pays to the Comptroller's and Treasurer's Office for handling Road Board funds. The money thus saved undoubtedly will be more than sufficient to purchase the old and existing building that can easily be converted and re-evaluated into a Tourist Temple.

In a letter to Chairman Alfred A. McKethan of the Road Board, Governor Warren said: "In keeping with the policy of this administration to obtain the maximum value for every tax dollar spent, I am confident you will work out a plan for acquiring this property at the lowest possible cost."

Since McKethan in private life is a small town banker (and of Scotch ancestry as well), I am pretty certain that he will drive a hard bargain from which the State of Florida will profit for a long time to come.

Call out the Reserves with a touch of your toe!

Most cars lead a double life. A good part of the time, they're running errands, taking children to school, taking women to stores, taking men to work, taking family and friends to clubs and social functions.

It doesn't call for a very great output of horsepower for duties like these.

But there are times when you want a car that can do vastly more, and these are the times when you'll want what this year's ROADMASTER has to offer.

Beneath its proud hood, there's a Fireball 8 Engine—a valve-in-head that can let loose 170 lively horsepower when needed.

And—alongside this engine—there's also an Airtorque carburetor which thrifly feeds fuel and air through two smaller-than-usual barrels for normal driving—which means that you now use less gas at 40 than you'd formerly use at 30.

But there are two barrels in reserve—waiting for you to call them into action—and they let loose a soaring rush of power that sinks your shoulders back into the seat cushion, swoops you past a truck-out of a tight spot—up a hill—sets your speedometer needle to registering

added miles more than twice as fast as your watch can tick off the seconds.

This is an experience you certainly should know firsthand.

You should also know how Buick's Power Steering* provides a helping hand in slow-motion maneuvers—lets you keep the "feel" of the car in straightaway driving.

And just for good measure, this '52 ROADMASTER also has the biggest brakes of any postwar Buick—the greatest trunk space since spare tires moved off the front fenders—a warning light that glows when the parking brake is set—and to top it all, the smartest interior fabrics that Buick has ever offered.

When are you coming in to look this distinguished performer over? We urge you to make it soon.

*Optional accessories, trim and models are subject to change without notice. *Optional extra cost on ROADMASTER only.

Sure is true for '52 BUICK will build them

OPIS INSPECTORS CHECK SO. FLA. CAR DEALERS

Many new and used car dealers in South Florida are being checked by the enforcement investigators of the OPIS as part of a current nationwide compliance survey of passenger car retailers.

John E. Neel, acting district director, has revealed. Every effort is being made to bring car dealers into compliance without court actions.

Neel said, "but where dealers persist in willful or irresponsible disregard of OPS regulations, civil or possibly criminal, actions will be brought."

The district director pointed out that the new car regulation especially requires that all retailers conspicuously display their ceiling prices by make and body style in each line or series, and itemize as to the amount of taxes, handling charges, transportation costs and other allowable charges that make up the total delivered ceiling price.

Used car dealers must tag or label each car offered for sale with the make, model, line, and selling price, including any extra, special or optional equipment on the car.

Both new and used car dealers are required to furnish each purchaser with a duplicate invoice within seven days after the sale containing certain information required in the ceiling price regulations covering the sale.

Neel said the South Florida OPIS office had received complaints that some dealers are requiring purchasers to take optional equipment and accessories to get delivery on a new car.

This is a clear violation of ceiling price regulations Neel warned.

By Royal Compton Already, they're calling it a "Tourist Temple"—that tourist information center which is to be erected across the street and the State Capitol.

The name was suggested by the bona fide (I am an interloper) author of this column, whose administration must be credited with origination and development of the project.

As a "temple," this information center will serve a dual, utilitarian purpose. This historic capital—only Confederate capital east of the Mississippi to repel Yankee invaders during the War Between the States—is a magnet for tourists.
